

Impact of sequestration on cancer drugs - This analysis is intended to assist in determining the impact of the sequester on cancer care in your practice. This analysis requests your cost per billing on chemotherapy and non-chemotherapy drugs. Your information will be kept very confidential. Your data will not be sold, shared or used for any commercial purpose. Your summary data (See "Summary" tab) will be identified as "Practice X" when averaged with all other participating practices. Practices that participate in this analysis will be given a copy of the summary results.

Instructions: Complete cells highlighted in yellow: practice name, number of medical oncologists, annualized quantity of billing unit for each drug, % Medicare of your patient mix (include Medicare Advantage), and billing unit purchase price of the drug. The Purchase Price should be the net price paid after discounts or rebates for each drug. Your GPO may be able to assist with the purchase price if it is not readily available. See the Summary tab once done. Email your results to bgamble@COAcancer.org.

Practice Name
of Medical Oncologists
